

# Cyber Wiser

## Offering simple, sound advice for our technological times.

With a cast of over ten different characters (some human, some puppet), ten costume changes, music from a dynamic sound system, a multitude of exquisitely made props and set, amazing illusions and a little juggling thrown in for good measure, Cyber Wiser thoroughly entertains while getting students thinking and questioning their activities both online and in the playground.

Three friendships are put to the test when one of the group unthinkingly posts photos on their Facebook page of their friend. The photos are soon seen by everyone in the school. Seen online, out of context and without any explanation, false conclusions are made and the bullying online commences immediately and continues the following day in the playground. With their long time friendship threatened the three friends take control and get the true story of the photos heard in order to bring the bullying under control.

With its baffling illusions, beautifully hand painted images that are not what they first appear to be and the mind boggling hexaflexagon, Cyber Wiser is designed to get students questioning both what they see and hear before they jump to conclusions.
