

Rhyme Time is a very visual forty plus minutes of poems, stories, songs and lots of fun.

The larger than life nursery rhyme character, Old Mother Hubbard has everyone join her as she recites her counting poems "One two, put on my shoe" and "Once I caught a fish alive". Children think it a little strange that when she was young, Old Mother Hubbard's favourite toy was a piece of coloured string; that is until she shows them what she can make out of it.

Having gained the little one's confidence, Max gets three children to dress up and join him as he tells his version of the classic fairy tale, Cinderella.

There are songs to learn and familiar songs to sing and clap along to.

Children love illusions and are amazed when the objects placed into their own hands change into completely different things and who knows how all those stars got into Max's hand?

Variety is definitely the key to this show's continuing success. With its ever changing visuals, costumes, puppets, and dress ups, it is all designed to keep your little ones captivated from beginning to end.

Add to all of this the youthful Max and you have the delightfully memorable Rhyme Time.

### What other pre-schools have said:

Content Great – rhymes, costumes and props fitted in with themes and stories - Mixture of old fashioned and modern day stories and rhymes. The performer was very enthusiastic and gave positive encouragement to the children - Used wonderful expressions, facial expressions and gestures. *Robyn Cartwright. Glen Innes Preschool. Glen Innes. NSW.*
